It is officially announced that Colone Smith, with ten companies of the Twelfth regiment and two guns of Battery E of the First artillery, under Lieutenant Kemley, attacked 2,500 strongly intreuched insurgents at the southern approach to Angeles and drove them back after a sharp fight. The American troops lost 2 men killed

The insurgent loss was estimated at 200 men.
Our forces will held Angeles.

About 200 insurgents appeared yester-lay morning in front of Dolores, a short distance north of Porac, but they were driven off by one company of the Twelfth regiment, under command of Captain Anglum. One American was wounded. Major Kirkman, on entering Santa Maria and Depansy with a reconnoiter ing party, learned that, after the fight with General Pio del Pilar's men near Bustos, about 530 insurgents retreated northward, carrying many wounded, in-cluding five officers.

The Twelfth infantry left Calulet at

Two companies re mained on the track with the artillers The insurgents were found well intrenched in front of the town, their renches having been dag within a few days and since the occupation of Calulet At a distance of 1,500 yards the Flii pinos opened fire. Their force was esti-mated by Colonel Smith at 1,500, al-though the residents afterward said it exceeded those figures by 1,000. The enemy sent heavy volleys agains:

the whole American line. Most of their shooting, as usual, was high, but they concentrated their heaviest fire down the track upon the artillery.

Colonel Smith kept the whole line mov

The insurgents attempted to flank Caprain Evans, and therefore two companies were sent to the right and drove them Unable to stand our continuous vol leys, the Filipinos abandoned the trench es and retreated through the town north ward. Saved from the Surgeon's Knife

No organs are of greater importance to the human body than the Kidneys. Their duty is to sift and strain the poisonous and waste matter from the blood and if they fail to do this, the trouble shows in the nervous system, and even is the brain. Your life is at stake when there are pains in the small of your backwhen you are compelled to get up at night to urinate—when the passing of water causes scalding pain-when there is a sediment in the urine in the vessel, o when it appears white or milky. When so afflicted, you can conquer the trouble with Dr. David Kennedy's Favorite Remedy, the greatest medicine that civilization has ever known for curing Kidney,

Bladder, Blood and Liver Diseases. James Lettice, of Canajoharie, N. Y., tells of bis wonderful cure: "Some years ago I was attacked with pains in my back and sides that were fearful. I could not control my kidneys, and what came from me was alled with muchs and blood. An Albany doctor was to perform an operation upon me, and said my home doctor could take care of me after. I saw an advertisement of Dr. David Kennedy's Favorite Remedy, which seemed to fit my sase, so I decided to try that before I submitted to the operation | I began ts use. When I had taken about

The Argus is indebted to Andrew J. Neams, who for years has been a keeper in Sing Sing prison, for a copy of the paper, The Star of Hope, which is printed in Sing Sing prison and "deroted to the interests of the inmates of the three State prisons." It is a sixteen oage sheet, well printed and the articles hat fill its broad pages are full of interest, for most of the writers look at ife and treat their subjects in a way so radically different from what we outside of prison walls are accretomed to that heir contributions have the interest that attaches to the most novel kind of novelty. Most of the articles are signed n this style, "Sing Sing 114," "Auburn 25,093," "Clinton 3,882," the pera mal dentity of convicts being lost when prison doors swing behind them. The most noticeable feature about the paper is the earnestness with which its contributors advocate the enactment of a law for the parole of prisoners, who by good behaviour have carned the right to have another try at life.

The weakest thing in the paper is its octry, most of which seems to be mischine-made and by a poor sort of machine at that. The only really innny thing in the paper is its burlesque advertisements, some of which are very clever is witness these samples.

JIMENEZ QUITS CUBA

Thinks His Presence Needed In Santo Domingo.

DEFEAT OF REVOLUTIONISTS DOUBTED

Future-When United States Bestows Statehood Her Promise Will Be Futatled.

HAVANA, Aug. 17. - General Juan Isidro Jimenez, the aspirant to the presidency of the republic of Santo Domingo, will probably leave Havana for Santo Domingo today, going by a south coast steamer from Batubano. He will be accompanied by two friends and will travel marmed. In his judgment the time is now ripe for him to place himself at the head of the movement in his favor. The dispatch which Pedro Linberas, former Dominican minister of the interior, sent from Santiago to the revolutionists, emphasizing the importance of denying the prosperity of the movement in favor of Jimenez, the latter interpret as merely intended to check the horde of Cuban and American adventurers who are eacer to embark for Santo Domingo. On the same principle he explains a elegram received yesterday telling of he defeat of the revolutionary forces. This report, he said, is probably false, as

the advices he has received personally from his representatives tell of nothing out successes. Stories to the contrary are, he is satisfied, put out in an endeavor friends from co-operating with him. He declares that, had he consulted only his personal wishes, he would have startd long ago, but he has been guided on tirely he his friends, who have felt that the best policy for him was to remain in

This is particularly the case among the leaders of the revolution. Those who were the first to advocate more liberal ideas are now coming to the front. They are ex-botting all to unite for the happiness and prosperity of Cuba. This is only the

matural course of ereots. Extremsts seldom succeed Moderate states men will hold the day." "Will Cuba be free or will she have a protectorate?" asks the Patria, and it answers its question by saying that "those who fear regarding the industries of the island desire a protectorate." The Sufragio Universal says:

"When the United States government makes Cuba a state of the American Union, then will be fuffilled the soleron promise declaring that the Cuban people ought to be free and independent. This would be in accordance with the American constitution, under which each state of the Union is, with respect to its own affairs, independent of the others."

BEARDED WOMEN.

Designing men, through alluring and conningly worded advertisements, constantly endeavor to work upon the feelings of sick and alling women by inviting them "to write to a noman"; and secure a reoman's sympathy." It is well to remember that the best sympathy is to be had at home and not from strangers, perhaps hundreds of miles distant. The object of the sick is to get well, and however precious sympathy may be, it never yet curred a seriously afficted woman. While the sympathy of your milliner or dressmaker might be appreciated and be just as beneficial, if not more so, than sympathy from a stranger, yet it can not effect your cure if you are an ailing woman. It is loudly proclaimed through the press that "is woman can best understand a woman's ailments," and on this ground sick women are invited to "write to a woman's advice. As far as known, there is no regularly qualified woman physician connected with any proprietary medicine especially designed for women—no one, therefore qualified by learning and experience, to advise on questions of disease and its cure.

It is certain that there is no one, men or woman, connected with any "put-up" medicine for women, excepting only Dr. Pierce's Favorite Prescription, who, like Dr Pierce, is a regular graduated and qualified physician, and who has, like him, devoted more than thirty years to the special study and treatment of diseases of women.
